Training by Airbus provides state-of-the-art training solutions to ensure safe, reliable and economic operations of all Airbus aircraft throughout their lifecycle. A comprehensive and tailored training portfolio is designed and developed by Airbus for pilots, cabin crews, performance and operations engineers, maintenance personnel, structure and repair specialists. Innovative courseware, highly-qualified instructors and the most advanced training technologies available on the market are the pillars of the Airbus Training offer. Training courses for 5 domains can be run in Airbus Training Centres which are located worldwide or can also be delivered at the customers' doorstep thanks to mobile solutions or even at their desk through e-Training features.

SPONSORSHIP SUPPORT

FSC — Flight Simulation Company B.V. is the largest independent and privately-owned simulator training center in Europe located at Amsterdam Schiphol Airport. Our simulator fleet consists of 12 full flight simulators including 3 Airbus 320, 1 Boeing 737-300, 4 Boeing 737-800, 1 Boeing 767, 1 Dornier 328JET, 1 Embraer 170/190.

FSC's in house ATO is approved both by European and Russian aviation authorities and provides a wide variety of EASA approved training courses including type rating trainings for A320, E190, B737-800, B767, B777 and B747.

Apart from standard courses, our professionalism and experience from working with over 150 airlines has given us the tools to create customized courses tailored specifically to your needs as an airline or training organization. Our team of highly qualified instructors is trained to bring out the best in every crew.

FSC works with many Russian and CIS airlines having Russian speaking customer service employees. Our aim is to provide the most efficient training for the Russian airlines, also to train and support their crews when introducing new aircrafts types in their fleet. With our experience we can increase the quality of the local flight crews and therefore contribute to aviation safety in Russia and CIS.

Delivering Friendly Quality is what drives us.

CONFERENCE AGENDA

JUNE THE 2ND

9:00 Registration opens, morning coffee
10:00 Conference opens

Welcome address

Oleg Starchevoy, Deputy Head, Federal Air Transport Agency

Alexander Yakovlev, General Director, Cluster Development Center of Ulyanovsk region

Sergey Krasnov, Rector, Ulyanovsk Higher Civil Aviation School

SESSION 1. AVIATION PROFESSIONALS: CURRENT TRENDS AND DEMANDS OF THE AVIATION LABOR MARKET

Analytical Survey of the Current Trends of the Aviation Labor Market in Russia

Margarita Yuskina, Head of Analytical Center, Aviapersonal

Current Trends of the Russian Aviation Labor Market. Successful Experience of Cooperation of the Higher Education Institute and Airlines in the Field of Flight Crew Training

Alexander Bondarenko, Dean of Faculty of Flight Operation and Air Traffic Control, PhD in Engineering Science, Ulyanovsk Higher Civil Aviation School

Alexander Mekhanyuk, Head of Civil Aviation Training Center, Ulyanovsk Higher Civil Aviation School

Development of Professional Standards and Industry Qualifications: Value for Industry Players

Anna Pozdnyakova, Executive Director, Aviation Personnel Association

Airline Fleet Modernization: the Russia — Built Aircraft Overview

Vladimir Gorbunov, General Director, Nordavia — Regional Airlines

12:00–12:30 Coffee break

SESSION 2. IMPROVING THE SYSTEM OF FLIGHT CREW EDUCATION AND TRAINING

PANEL DISCUSSION. Quality and Effectiveness of Flight Crew Education and Training in Institutions of Higher Education and Aviation Training Centers: Directions of Future Development

Yuriy Mikhailchevskiy, Deputy Rector for CPE & International Communication — Director of Aviation Training Centre, Saint Petersburg State University of Civil Aviation

Oleg Vasilyev, Director, Aeroflot Aviation School

Enhancing Crew Monitoring and Cross-checking

Igor Nesterov, Deputy Head of Flight Standards Department, AirBridgeCargo airlines

Simulator Training Evolution: from Basic to Alternative

Savva Faradzhev, Deputy Director of Accidents Prevention Department, Flight Instructor, Volga-Dnepr Airlines

14:00–15:00 Lunch

SESSION 2. IMPROVING THE SYSTEM OF FLIGHT CREW EDUCATION AND TRAINING

Training by Airbus

Joëlle Barthe-Heusse, Flight Operations, Support Director — Russia, CIS and Baltic countries, Airbus S.A.S

A Typical Corporate Program of Differentiated Training of Airline Personnel in the Field of Safety Management System

Anatoliy Guziy, Deputy Safety Management Director, Doctor of Engineering, Professor, Utair Airlines

PANEL DISCUSSION. Searching for legal approaches to enhance effectiveness of aviation professionals training in terms of:

- Qualifying requirements
- Typical programs
- Attestation order

Alexander Vindermuth, Vice-President, AEVT

Stanislav Novoseltsev, Director, Center of Training and Staff Development of Aviastar-SP

Oleg Vasilyev, Director, Aeroflot Aviation School

16:30–16:45 Coffee break

SESSION 3. FLIGHT CREW TRAINING: MANAGING FLIGHT SAFETY

Top-Management and Senior Captain UTair SMS Corporate Training

Captain Aleksander Lushkin, Deputy CEO-Safety Management Director, Candidate of Sciences (Engineering), Utair Airlines

Training Program for Aviation Specialists (Aircraft Commanders and Senior Engineers) as Line Managers of Primary Teams in Terms of Flight Safety Provision

Oleg Omelyanenko, Head of Aviation Accidents Prevention and Flight Safety department, Volga — Dnepr Airlines

17:45 Summary and conclusions

18:00 The end of the 1st day of the conference
Cocktail reception at the cafe Dr.Watson: ground floor, 83 bld., ul. Federatsii, Ulyanovsk

JUNE THE 3RD

9:00 Registration opens, morning coffee
10:00 Conference opens

SESSION 4. AVIATION SPECIALISTS TRAINING

TBC	Bogdan Furundzhi , Chairman of the Board, Transport and Telecommunication Institute
Harmonization of Qualifying Requirements and Aviation Personnel Training Programs in Russia and European Union: Movement Vector	Leonid Filatov , Head of Coordination and Development of Scientific Activities Department, Ulyanovsk Higher Civil Aviation School David Campbell , Project Coordinator, European Union

11:00–11:30 Coffee break

Cooperation with Employers in the Implementation of Aviation Fuel Operators Training Program	Radik Fayzullin , Head of Aviation Fuel Department, Candidate of Engineering Sciences, Docent, Ulyanovsk Higher Civil Aviation School
Expanding Cooperation with the State ATM Corporation for Improving the Process of Civil Aviation Air Traffic Controllers Training	Vladimir Borisov , Acting Head of Air Traffic Management and Navigation Department, Ulyanovsk Higher Civil Aviation School

12:20 Conference summary and conclusions

12:30–13:30 Excursion to Training Center of Ulyanovsk Higher Civil Aviation School

13:30–14:30 Lunch

ORGANIZED BY

Ulyanovsk Cluster Development Center (UCDC) is a young fast growing diversified company. It is a managing company of the aviation cluster established in 2009 in Ulyanovsk region.

UCDC's portfolio includes such projects as International Aviation Transport Forum, Ulyanovsk — the Aviation Capital, Russian Engineering, Ilyushin Il-76: Yesterday, Today, Tomorrow conference, Aviation Initiatives Week and others.

The company's first priority is establishment and development of innovative clusters in aircraft industry, machinery engineering and others.

Today, UCDC is forming clusters of various specializations in partnership with the region's enterprises. The work scope includes technical and technological expertise of the projects as well investment contract management.

Ulyanovsk Higher
Civil Aviation School

IN COOPERATION WITH

Ulyanovsk Civil Aviation Institute

Established in 1935, Ulyanovsk Civil Aviation Institute is the oldest and the largest civil aviation higher educational institution in Russia. For many years, quality government approved study programs attract to our Institute entrants and experienced civil aviation specialists from Russia and many other countries of the world.

Our primary mission is civil aviation pilot training. We provide integrated full-time pilot training program, including CPL and academic degree. Initial flight training is provided on DA40 aircraft, and further type rating is provided on DA42.

We offer various ab-initio study programs, academic degree programs in civil aviation and supplementary professional training courses. We also offer integrated degree programs for pilots, air traffic controllers, search and rescue officers, aviation security officers, aviation fuel supply engineers, quality managers, technosphere safety officers, flight attendants, maintenance personnel, and flight instructors, as well as transition training, simulator training, and type-rating courses for all types of Russian aircraft.

We have our own airfield, aircraft maintenance shops, the largest Russian aircraft simulator training center, and diverse aircraft fleet including modern Russian and foreign-manufactured airplanes.

UHCAS Simulator Training Center is equipped with state-of-the-art A320, B-737, SSJ-100, Ty-204-100 FFSS, A320/330 TST, FNPT II DA40 and DA42, as well as IL-76TD, Yak-42, Yak-40, An-24(26), Yak-18T and An-2 aircraft simulators, ATC and SAR training devices.
